VOSSLER ANNOUNCES PLANS FOR WOODVILLE AVIATION DEVELOPMENT

WOODVILLE - A major aviation development at Woodville was announced this week by Albert J. Vossler, rancher and operator of the Vossler Flying service.

Located on the 42-acre site of the old Charley Vossler home ranch just east of Woodville, the development, according to Vossler, will include expanded facilities for flight instruction and flight checks in both fixed-wing and roto-wing aircraft, as well as for instruction of aircraft and engine mechanics.

In addition, Vossler says, he plans to build a 10-unit motel for pilots and flying families; a warm water lake; a swimming pool and wading pool; a recreation patio; and 10 units of modern T-hangars, with contract already let on the latter item.

Existing buildings used by Vossler in his previous operation are being remodeled, and possibly new buildings constructed, to meet requirements of the new school; existing runway is being extended, and a second runway will be constructed, Vossler says.

He also plans to construct a show room for Beechcraft, Citabria, and Piper aircraft, for which he holds a dealer's license, and to operate a charter

service with a twin-engine Piper Aztec.

Vossler states that his chief pilot will be John Leonard, formerly chief pilot for Tradewinds Flight service at Fresno; assistant chief pilot will be Jim Enloe, operator of the Cal-City Veteran program for the past four years.

Editorial Comment

WE PROTEST — AND YOU SHOULD

Says the newspaper story, "The Tulare County Community Action Agency, anti-poverty office, will hold a public meeting... April 25... at the Earlimart elementary school to elect two low-income representatives from the fifth supervisorial district to serve on the TCCAA and the Tulare County Legal Service association."

"...All low income persons of the fifth district, whether citizens of the U. S. or not, are urged to attend the meeting and vote for their choice of directors."

Whether citizens of the U.S. or not?

That's right. That's the way this TCCAA works.

And this we protest.

A pot full of tax money is being dumped into this ill-conceived program. Certainly no one who is not a citizen of the United States should have a voice, directly or indirectly, in matters of policy concerning the expenditure of tax money or the implementation of programs financed by tax money.

So we protest this business of voting by non-citizens. And we suggest that you also protest it - right to your representatives in Washington D.C.

the Saturday and Sunday rodeos and at the rodeo dance, to be held in the VFW hall, Saturday night, where he will do some of his comedy routines. Music will be provided by the Jelly Sanders band.

Slim got his basic training as a cowhand the hard way. Grandson of a Civil War veteran, who fought

for the north and later became a Texas rancher, and son of a Central California rancher, Slim grew up with horses and cattle.

He was just 12 years old when the rodeo bug bit him. "I'd been riding calves and roping steers all my life," Slim recalls, "and when my dad took me to my first rodeo, I thought it'd be just fine to get paid for doing the same kind of work."

When he was 15 years old, in the heart of the depression, he left his home near Hanford and signed up for a rodeo in a small town in the San Joaquin Valley. He didn't want to advertise his whereabouts to his family, so he tried to think of a false name to use. The man filling out the entry forms suggested: "Why not call yourself 'Slim Pickens'? That's all you'll learn around this rodeo."

That's the handle Louis B. Lindley Jr. has used ever since.

Slim told Rodeo Chairman Ray Taylor that he expected to enjoy the visit to Porterville. "I have lots of friends in that area," he said.

There are many bargains currently being offered to aid your garden. Much as we hate to breathe a word of advertising we feel that these must be mentioned. You may skip the balance of this paragraph and avoid this propaganda or you may read on. To start with American peat moss is two ninety five a bale, steer manure is seventy nine cents a sack, forest humus is one sixty seven for two cubic feet, and one ninety seven for three cubic feet. Camellia food is one ninety eight for twenty pounds and all-purpose food is reduced in price for all sizes. Lastly, for plants on a liquid diet the gallons of Ortho-Gro are on a one cent sale. Buy one gallon and get another for a penny.

Enough of that nonsense. The time has come for reminding you to water everything well and deeply. It's really dry down there. This includes a weekly deep watering of the lawn and a reminder not to mow the grass too short. Let it grow a little so it may shade out the weeds and fill in the bare spots.

This is also a good week to visit Mr. Gibson's Iris garden. A beautiful sight to see but do it now while the Iris are at their best. The place is located just back of the High School at 146 South Villa. Probably few places in the world have such flowers as you can find right here in Porterville.

Medical Care Begins With You

In time of sickness you want—and demand—the best of care. But do you know that much of this care must come from yourself?

Too many people consider that a doctor's advice is something to be taken or ignored—depending on how they feel at the moment. These people do not receive the fullest benefit from their physician's attention.

Care begins when you conserve your strength and follow your doctor's orders. Keep him accurately informed about your condition; take your medicines according to directions; and follow his instructions carefully. By so doing, you become a good patient, one who gets the greatest possible benefit from the care he receives.

Bring your doctor's prescriptions to our Pharmacy to be filled by our highly-skilled personnel.
